KNOWN IN GOVERNMENT CIRCLES

EMCOR Government Services' (EGS) reputation as a leading integrated service provider in the United States is earned as a result of numerous complex and operationally challenging facilities. EGS delivers reliable, cost-effective services to 35+ federal government agencies, including hospitals and national laboratories, cabinet-level and headquarters campuses, and facilities that support the Intelligence Community.

Shaping policies that improve facilities management

Using its extensive facilities expertise, EGS works with clients to develop and implement facilities policies and procedures that will increase management control, help improve performance, and help ensure maximum value from facilities both today—and tomorrow. EGS professionals also serve on advisory committees (staying closely tuned to and influencing current issues, industry developments, and policies), including: ASHRAE, ASME, and NFPA.

Meeting today's complex operations & maintenance (O&M) demands

EGS professionals are highly skilled in the advanced technologies and procedures needed by facilities managers to meet today's complex challenges. State-of-the-art technologies – such as predictive maintenance, bar coding, and remote monitoring – are routinely deployed at client sites. Whatever the situation, we can help you avoid unnecessary downtime, reduce energy costs, increase security, and enhance operating efficiency.

When you choose EGS, you choose:

- **Stability**
Financial backing of a Fortune 500® company
- **Quality**
ISO 9001:2008-certified business processes
- **Consistency**
Dedication to managing government programs and complying with federal contracting regulations
- **Industry Best Practices**
EMCOR Group, Inc. services over 75 percent of the Fortune 500®
- **Flexibility and Responsiveness**
An organizational culture that values long-term partnerships
- **Technical Depth**
A vast knowledge network that supports and complements our on-site project teams
- **Innovation**
\$10M invested annually in new productivity-enhancing technology and infrastructure
- **Resources**
Thousands of professionals ready to respond to any contingency

We operate under the following NAICS codes:

- Facility Maintenance 561210
- Facility Management 561210
- HVAC 238220
- Elevator Inspection 333921
- Other Services 54133

Helping make government more productive ... & Cost-effective

Managing changing facilities needs

When new or increased demands necessitate upgrading or expanding your systems and facilities, our experienced project managers and skilled tradespeople can help keep the job on schedule and within budget. From initial system design, to completion and retro-commissioning, we deliver high-quality solutions that expand capacity and improve productivity.

Mobile services where you want—when you want

Supported by leading-edge communications technology, an extensive database of facilities knowledge, and a nationwide fleet of fully equipped vehicles, our experienced technical professionals help meet clients' facilities needs 24/7/365. With their specialized skills and advanced service tools, EGS professionals help maintain and repair clients' systems quickly and effectively, to help enable continuously smooth, dependable operation.

Diagnostics to protect your facility's health

EGS facilities diagnostics team helps clients optimize facilities investments and solve performance problems when others can't. They can also design and implement strategies and systems that will help maximize efficiency and long-term service. And they perform the commissioning and retro-commissioning procedures needed to help ensure that clients get the benefits that systems were designed to provide.
